Students will be broken up into groups of 2 with a bean bag. Groups will stand across from another group with a bulls eye target between them. Partners will take turns tossing their bean bag towards the target to get it to land on top. If it lands on the mat, they score that many cups for their group. If it touches between two numbers, they score the higher number. They will then retrieve the bean bag, hand it to their partner and then place their cup behind their group.

Scoring: 5 points = 1 Cup
10 Points = 2 Cups
15 Points = 3 Cups
20 Points = 4 Cups
