

## Manipulative Skills with Bean Bags

# Bean Bag Sliders

### Standards:

- Cooperation S4.E4

### Equipment:

- Bean Bags
- Poly Spots
- Pins
- Music

Students will be broken up into groups of 2 at a poly spot with their group's bean bag. Across from them, there will be pins scattered about on top of poly spots. When the music starts, the first partner will slide their bean bag across the floor towards the pins to try and knock one down. If they do not knock a pin down, they will retrieve their bean bag and hand it to their partner. If they knock down a pin, they will set it back up on the poly spot and get 1 cup. They will take their cup and bean bag back to their partner and then make a pile of their cup.
